DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 59-60 and 74 are rejected under 35 U.S.C. 103(a) as being unpatentable over Michalke in view of DeLine et al.

Michalke (DE 299 16 732 U1) discloses a mirror (Figure 2, element 2) comprising a reflective surface (Figure 2, element 4), a non-reflective portion (Figure 2, element 5) provided within the reflective surface as an information provider (Figure 2, element 6), wherein at least a portion of the mirror surface is transparent for seeing therethrough (translation; page 4, line 16) and is backed by a display (Figure 2, element 2') provided with a moving image (translation; page 5, lines 18-25), whereby the display is provided with an interchangeable item of information (translation; page 5, lines 2-4), connected to an input device (Figure 2, element 10).

Michalke teaches the salient features of the present invention as explained above, except a loudspeaker is connected to the display.

DeLine et al. (US Patent Number 6,172,613 B1) disclose a loudspeaker is connected to a mirror display (column 26, lines 5-6 and 8-10).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to utilize a loudspeaker is connected to the display as shown by DeLine et al. in combination with Michalke's invention for the purpose of providing an audible signal to the user (DeLine et al., column 5, lines 35-38).

Response to Arguments

3. Applicant's arguments filed on 04/27/2007 have been fully considered but they are not persuasive.

4. In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

5. In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re*

Jones, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, DeLine et al. teach the motivation to combine the references, i.e. for the purpose of providing an audible signal to the user (DeLine et al., column 5, lines 35-38). The examiner in the Office Action filed on 10/31/2006 previously indicated said motivation.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
